First unpack carton carefully, arranging parts safely in your working area.

Above Ground

In-Ground

Place reservoir on level ground or for *in-ground* set-up, dig a hole and ensure reservoir is level. Place pump in reservoir. We suggest setting flow to full strength for best effect. Pump should sit flat on bottom.

For *in-ground* installation, back fill just below top of reservoir.

Install centre plate as illustrated.

Twist and secure feature into place

Connect tubing from feature to pump outlet.

Thank you for buying an Angelo Decor Fountain!

Install the remaining two side plates.

Apply silicone along seams.

Add decorative rocks as desired.

Add the extra rocks for decoration

Add the extra wood for decoration

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
