

## Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase.

Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information.

**First unpack carton carefully, arranging parts safely in your working area.**

Feed the pump cord down the cord pipe.

Run cord down through the pedestal and align with groove at base.

Twist and lock bowl to pedestal.

Adjust the pump to desired setting.

Insert the rubber stopper into place.

Connect the pre-installed tubing from the "Y" connection to the metal fitting. Connect the tubing from the top to the remaining output of the "Y".

Use caution when installing the top so as not to damage the cord pipe.

To install the top, align the metal pin with the groove as shown. Lower the top section into place at an angle as shown top right. Once lowered into place, slide this piece forward to lock into place.

Use the restrictor to the amount of flow from the feature.

Place the pump inside the housing, ensuring the tubing is not kinked.

Install the pump access door as shown.

Add decorative rocks as desired.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet  
**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**
