

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Feed the tubing from the top section down through the cord pipe in to the main reservoir.

Gently slide the top section into place.

Connect the pump to the tubing as shown to the right.

Adjust the pump to the highest setting. If splash is a concern, reduce the flow as needed.

Feed the pump down the cord pipe inside the pump housing as shown to the left.

Align the cord with the groove at the base as indicated by the arrow.

Install the pump access door.

Final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
