

**Thank you for buying an Angelo Decor Fountain!**

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information.

**First unpack carton carefully, arranging parts safely in your working area.**

Pump comes pre-installed with cord seal. Check to see the cord seal is tight. Adjust pump to desired setting.

Run cord down through the pedestal and align with groove at base.

"Twist and lock" bowl and pedestal in place.

Connect supplied tubing to the pump as shown above.

"Twist and lock" riser in place.

Install the " T" joint. Connect the short piece of tubing to the copper output. The long piece will go through the second bowl.

" Twist and lock" riser and bowl

Run the tubing up to second riser. Slide the riser into place as snow

Connect the tubing to the final bowl

Slide the final bowl and top into place

Install the pump access door.

This fountain comes complete with our innovative splash reduction system. If splash is a concern, simply drape the splash line over each spill point to dramatically reduce splash.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet  
**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**
