

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Adjust flow to desired

Pump and light cords through PVC pipe

Lead the cords to the groove at bottom.

Insert rubber stopper as shown.

Connect tubing to the pump

Be sure pump line up with arrow for proper fit at bottom of reservoir

Secure bowl into place with metal " slip fit " fixture

Attach light cord to transformer. Be sure it is tight. Place transformer in a secure area, preferably under cover. While this unit is rated for outdoor use, it should not be fully submersed in the water.

The final assembly should look like this →

Now simply fill with clean water and plug light and pump into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
 Your fountain works better and lasts longer when kept clean using mild soap and soft cloth on a regular basis.
