

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please DO NOT return the unit to place of purchase.

Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information.

**First unpack carton carefully, arranging parts safely in your working area.**

Pump cord through standpipe.

Adjust pump to desired setting.

Connect tubing to the pump.

Light cord through standpipe.

Make sure both power cords go through the groove at base.

Insert rubber bung as shown.

Set the light into the groove of cover plate

Set the cover plate into place

To use optional stabilizing system:  
Insert pins and turn clockwise until tight. Slip leg over pin until firm against back of fountain. Repeat for the other leg.

Final installation should look as shown above.

Adjust the direction of light as desired.

The final assembly should look like this →

Attach light cord to transformer. Be sure it is tight as shown.  
Place transformer in secure area, preferably under cover.  
While this unit is rated for outdoor use, it should not be fully submersed in the water.

Now simply fill with clean water and plug into a grounded GFCI outlet  
**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**

Your fountain will work better, and last longer, when kept clean using a soft cloth and mild soap on a regular basis.
