

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Feed the light cord through the hole, and out the access section at the back.

Set the light into place

Adjust angle of light as desired.

Set pump to desired setting.

Connect pump to the tubing.

Set pump inside pump housing.

Attach light cord to transformer. Be sure it is tight. Place transformer in a secure area, preferably under cover. While this unit is rated for outdoor use, it should not be fully submersed in the water.

Add decorative rocks as desired.

The final assembly should look like this →

Now simply fill with clean water and plug light and pump into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

Your fountain works better and lasts longer when kept clean using mild soap and soft cloth on a regular basis.
