First unpack carton carefully, arranging parts safely in your working area.

Connect the pump to the tubing at the rear of the fountain and set the pump to the desired setting.

Place the pump inside the access hole and set firmly on the base of the fountain.

Guide the light cord through the opening at the front as shown above.

Reach in the access hole at the rear of the fountain and pull the excess cord through.

Connect the light cord to the transformer.

Adjust the light to the desired angle.

Add decorative rocks as desired.

Final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.
