First unpack carton carefully, arranging parts safely in your working area.
This fountain is made from natural stone, setup may require 2 people.

Set the base in place.

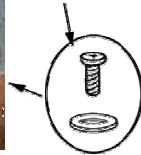

Connect the pump to the tubing exiting the main body of the fountain.

Lower the main body onto the base with the pump attached as shown.

Secure the main body to the base using the screws and washers included as shown above.

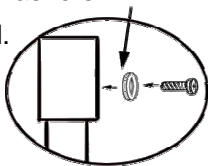

Add decorative rocks as desired.

Set the top in place.

Secure the top in place at the rear using the included screws and washers as illustrated.

Attach the light cord to the transformer as shown above.

This fountain includes an optional planter feature. It can be used as a planter, as shown above, or without as shown in the final assembly to the left. →

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
