

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please DO NOT return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Install the section, placing the tubing down through the opening.

If desired, install the faux decorative plant as shown.

Insert the pump into the opening at the back of the fountain and connect to the tubing from the top.

Install the pump access door.

The final assembly should look as follows →

Now simply fill with clean water and plug into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

Your fountain will work better, and last longer, when kept clean using a soft cloth and mild soap on a regular basis. This item should be stored properly for harsh winters, as water left to freeze in the bowl may cause cracking, which is not covered by warranty. May we suggest you disassemble the unit for the winter months, removing pump and all water, and store in the garage or shed for best results.
