

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Cord through standpipe

Insert cord through pedestal. Align with groove in the base.

Twist and lock the bowl to the pedestal.

Pump is preset to full, adjust lower if less splash is desired.

Twist and lock the riser to the bowl

Insert the "slip fit" into riser and then set the 2nd bowl into place

Connect the tubing to top feature. Insert tubing through the 2nd bowl and through to pump housing.

Connect the tubing to the pump, be sure it sits flat inside the housing without any kink in the hose.

Install the pump access door. This feature makes it easier for you to clean and adjust your pump.

This fountain comes complete with our innovative splash reduction system. If splash is a concern, simply drape the splash line over each spill point to dramatically reduce splash.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
