

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please DO NOT return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Cord seal and pump come pre-installed. Check to see the cord seal is tight. Adjust pump to desired setting.

Run cord down pedestal.

Align cord with groove at base.

Twist and lock the bowl to the base.

Connect tubing to the pump.

Install riser as shown

Install the " T" joint. Connect the short piece of tubing to the copper output. The long piece will go through the second bowl.

" Twist and lock" riser and bowl

Run tubing through the final riser

Slide the riser into place.

Slide bowl into place.

Pass the tubing through the final bowl

Connect the tubing to the top and slide in place.

Install the pump access door

The final assembly should look like this →

This fountain comes complete with our innovative splash reduction system. If splash is a concern, simply drape the splash line over each spill point to dramatically reduce splash.

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
