

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please DO NOT return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Run pump cord through standpipe and base, place in groove at bottom. Secure bowl to base.

Pump is preinstalled with cord seal. We suggest setting flow to full strength for best effect. Pump should sit flat on bottom. Attach hose, feed through riser, and secure into place.

Feed tube through top bowl, then secure in place. Attach tube to pipe in top, then secure.

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
