

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Feed the cord through the cord pipe.

Feed the cord down and through the pedestal and align it with the groove at the base.

Carefully place the large bowl on the pedestal by aligning the grooves as shown.

The pump should sit flat inside the bowl as shown above. Attach the included tubing to the pump.

Set the pump housing / riser into place by aligning the grooves.

Feed the tubing up the pump housing / riser and pass it through the middle of the second bowl.

Set the second bowl in place by aligning the grooves.

The riser is installed next. After feeding the tubing through the riser, slide it in place with the grooves aligned.

Pass the tubing through the last bowl and set in place with grooves aligned.

Connect the tubing to the top piece.

Align the grooves and set the top in place.

Includes 2 Easily Interchangeable Spouting Features

Check to ensure the tubing is still properly attached to the pump and install the pump access door. This feature makes it easier for you to clean and adjust your pump.

This fountain comes complete with our innovative splash reduction system. If splash is a concern, simply drape the splash line over each spill point to dramatically reduce splash.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
Product must be properly stored for winter.
