

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Pump is pre installed. Note flow control to adjust. We recommend full strength setting for maximum effect, but you may want to adjust downward in areas where splashing is a concern.

Attach tubing to pump, twist and lock top into place.

Top should sit level and secure inside pedestal for best effect. You may have to wipe the top unit on first use with water running to get the water to cover entire top.

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
