

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Unpack and arrange all parts.

Slide the optional light feature into the holder at the back of the fountain.

Connect the cord from the light to the transformer.

Attach the tubing to the pump. Set the pump to full strength. If splash is a concern, adjust the flow as needed.

Final assembly should look like this →

Place the pump inside the reservoir, being certain it is fully submerged and sitting flat on the base.

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
