First unpack carton carefully, arranging parts safely in your working area.

Arrange all parts in your work area.

Align the "slip-fit" mechanism and gently set the bird in place.

Connect the pump to the tubing and adjust the pump to your desired setting.

Place the pump inside the fountain as shown, ensuring it will be fully submersed in water.

Install the pump access door.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
