

**Thank you for buying an Angelo Decor Fountain! We hope you will find these instructions helpful in setting up your fountain.**

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information. First unpack carton carefully, arranging parts safely in your working area.

Arrange all parts. The lights are pre-installed. Check to ensure each light is pointed down towards the water so that the water will help to cool the light when in operation.

Repeat the above step with the third light in the bottom bowl.

Connect the light set to the transformer.

Connect the tubing to the pump and adjust the pump to its highest setting.

Place the pump inside the reservoir so that it is fully submersed.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet  
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
