

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Run pump cord through standpipe and base. Secure bowl to base. Secure pump housing to Bowl. We suggest setting flow to full strength for best effect. Pump should sit flat on bottom.

Install large splash guard as illustrated. Secure small bowl to riser. Install small splash guard. Attach hose, feed through riser, and secure top into place.

Feed tube through top bowl to pump housing, then secure in place. Attach tube to pump then install pump cover.

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
