

Mamma Bears Fountain Setup

Thank you for buying a "Mamma Bears" Fountain by Angelo Décor! We hope you will find these instructions helpful in setting up your fountain. ***If you have any questions with set up, parts replacement or warranty info, please, rather than returning your unit to the store, try a visit to our website, and give us a chance to help you. You will find helpful info at www.angelodecor.com***
First unpack carton carefully, and inspect contents carefully.

cord through standpipe

cord through bowl

cord through bottom groove

line up twist and lock,
secure bowl to base

pull pump outlet out
with pliers

measure amount of
tubing needed

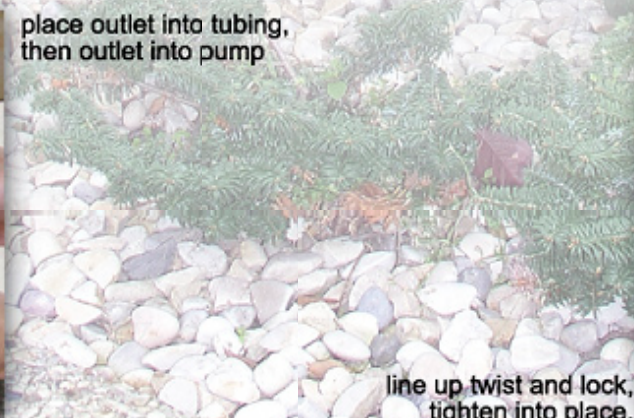

cut tubing to size
(measure twice, cut once!)

set pump to 3/4 flow

place outlet into tubing,
then outlet into pump

line up twist and lock,
tighten into place.

Now simply fill with clean water and plug into a grounded GFCI outlet. Please keep clean using a mild soap and soft cloth, and inspect pump for debris often.

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

We also remind you that this item should be stored properly for harsh winters, as water left to freeze in the bowl may cause cracking, and is not covered by warranty. May we suggest you disassemble and store for the winter months to preserve and prolong your investment.

CONGRATULATIONS! We wish you years of enjoyment.
