

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

This unit requires a level surface for best operation

Remove pump feet. Install pump in center cavity with cord through pipe and fit in groove at bottom. Attach tubing to pump.

place tubing into riser as shown, and add the other parts, fitting them into place, while feeding tubing through to top

Continue feeding tube to top, securing parts in place as you go. Attach tube to top pipe securely.

Be sure pump sits securely at bottom, and check to see tube is not bent. Install pump access door.

Now simply fill with clean water and plug into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.
