

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please DO NOT return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Pump is pre installed with seal. Run cord through base, and into groove at bottom. Secure pump cover in place

Pump cover sits flat on bottom. Set pump flow to maximum. Attach tubing to pump.

Secure top into place, be sure not to bend hose. This is your finished look!

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
