

Thank you for buying an Angelo Decor "Majestic Lion" Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

2 people required to unpack, one holds base, other removes top

You have two options for installing pump. Choose to either run cord through base and out broove in bottom, or simply hang cord out back as shown.

attach pump, check that tubing length allows pump to sit at bottom

set pump to high flow

pump and cord should be placed as shown

carefully lower pump into cavity, keeping cord in groove

line up posts with grooves, fit firmly into place

this is how a finished installation should look!

Now simply fill with clean water and plug into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

CONGRATULATIONS! Thanks again for buying a quality Angelo Décor product.
