

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Pump is pre-installed with seal. Check to be sure it is tight

Pump is set to full.
Reduce flow if lower splash is desired.

Pump should sit flat and move free inside pump house

Use the supplied tubing and connector to connect to the top water feature

Run tubing through middle riser section.

Twist and lock riser to the top section.

Twist and lock riser to pump house.

Connect tubing to the pump.
Place inside sitting flat on bottom.

Install the pump access door.

Install spill bucket using grooves.
Position bucket so it will spill forward.

Final Assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
