First unpack carton carefully, arranging parts safely in your working area.

This fountain is made from natural stone, setup may require 2 people.

Set the base in the desired location.

To connect the pump, set the main body at an angle on the base as shown, and connect the tubing to the pump. Set the pump to the desired setting. Place the main body on to the base.

Align the cord for the light and pump with the groove as shown.

Secure the top to the base with the included screws and washers.

Install the pump access door.

Add decorative rocks as desired.

Attach the two installed lights to the top plate as illustrated above.

Set the top plate in place.

Attach the light cord to the transformer.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
