

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you have any issues with this item, please DO NOT return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Feed the pump cord down the pipe.

Install the pipe seal as shown above.

Align the cord with the groove at the base.

Adjust the pump to your desired setting. If splash is a concern, reduce the flow by adjusting the dial as needed.

Connect the pump to the tubing and place the pump inside the fountain.

Install the pump access door by sliding the door into place as shown.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet. **We recommend keeping bowl 3/4 full of water to avoid pump burnout.**
