

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Adjust flow to desired

Pump cord through pedestal

Light cord through pedestal

Make sure both power cord go through pvc pipe, lead to the groove at bottom. Insert rubber bung as shown.

Connect tubing to the pump

Secure bowl into place

Attach light cord to transformer. Be sure it is tight. Place transformer in a secure area, preferably under cover. While this unit is rated for outdoor use, it should not be fully submersed in the water.

The final assembly should look like this →

Now simply fill with clean water and plug light and pump into a grounded GFCI outlet

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

Your fountain works better and lasts longer when kept clean using mild soap and soft cloth on a regular basis.
