

## Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase. Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information.

**First unpack carton carefully, arranging parts safely in your working area.**

Pump comes pre-installed with cord seal. Check to see the cord seal is tight.

Lead the cord into the groove at the bottom.

Insert the PVC pipe into the groove.

Set pump housing into place.

Adjust flow as desired. We recommend full power

Connect the tubing to the pump.

"Twist and lock" urn to the pump housing

Install the pump access door.

If desired, legs can be added to the base of the fountain as shown

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet

**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**

Your fountain will work better, and last longer, when kept clean using a soft cloth and mild soap on a regular basis.
