

Thank you for buying an Angelo Décor Fountain!
We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase.
Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Arrange all pieces in your workspace.

Pass the power cord down the cord pipe in the bowl.

Align the pump cord with the groove at the base of the bowl.

Install the cord pipe cover by aligning the cord then fitting it in to the pipe.

The pump is preset to full strength. If splash is a concern, adjust as needed.

Connect the tubing from the top to the pump and place it inside the reservoir.

Gently lower the top in place. Align the grooves and twist to lock in place. Be careful not to kink the tubing or pinch the cord in the locking ring.

Add decorative rocks as desired.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet.
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
Product must be properly stored for winter.
