

Thank you for buying an Angelo Décor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase.

Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Arrange all parts in your workspace.

Pass the tubing from the top through the opening as shown above.

Align the top and gently set it in place.

Locate the tubing from inside the reservoir and connect it to the pump.

The pump is preset to full strength. If splash is a concern, adjust as needed.

Pass the cord from the pump out the rear access hole and place it flat inside the reservoir.

Pass the light in to the fountain from the rear access hole and press it in to the holder as shown above.

Install the pump cover plate. Be careful not to break the light bulb lens during this step.

Connect the cable from the light to the transformer.

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
Product must be properly stored for winter.
