

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain. If you need more information to properly care for your fountain, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Place the tubing from the lower section inside the pump housing.

Place the tubing from the upper section inside the pump housing.

Connect the tubing to the "T" connection.

Connect the tubing to the pump.

Set the pump securely in the base of the pump housing.

Set the top section in place.

Install the pump access door.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.

Your fountain will work better, and last longer, when kept clean using a soft cloth and mild soap on a regular basis. This item should be stored properly for harsh winters, as water left to freeze in the bowl may cause cracking, which

is not covered by warranty. May we suggest you disassemble the unit for the winter months, removing pump and all water, and store in the garage or shed for best results.
