

Thank you for buying an Angelo Decor Fountain!

We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, www.angelodecor.com, for assistance and warranty information.

First unpack carton carefully, arranging parts safely in your working area.

Feed the pump cord through cord pipe.

Align the pump cord with the groove at the base.

Pump is set to full. Reduce flow if lower splash is desired

Connect the tubing to the pump as illustrated above.

Pump should sit flat and move free inside pump house.

Install the pump access door

The final assembly should look like this

Now simply fill with clean water and plug into a grounded GFCI outlet
We recommend keeping bowl 3/4 full of water to avoid pump burnout.
