

Thank you for buying an Angelo Décor Fountain!  
We hope you will find these instructions helpful in setting up your fountain.

If you have any issues with this item, please **DO NOT** return the unit to place of purchase. Please visit our web site, [www.angelodecor.com](http://www.angelodecor.com), for assistance and warranty information.

**First unpack carton carefully, arranging parts safely in your working area.**

Feed the pump cord through the cord hole and align with the groove at the base as shown above.

The pump should be set to full strength.

The including tubing shown above will be used with this fountain.

Connect the end with the shortest piece of tubing to the pump.

Feed the longest piece of tubing up through the access hole to the top as shown.

Slide the "slip fit" pipe into this same hole. Feed the tubing up through the hole.

Set the large cover plate into place on top of the bowl by aligning the grooves.

Feed the remaining tube up through the hole in the plate as shown.

Set the bowl in place by sliding it down over the white pipe. Connect the tubing from the previous step to the outlet on the bottom of this bowl. Carefully set the bowl in place.

Set the second plate on top of this bowl as shown.

Set the final bowl in place by sliding it over the white pipe and setting it on to the plate.

Set the final plate into place.

Connect the tubing to the top feature. Set the top into place by sliding it over the white pipe.

Install the pump access door.

The final assembly should look like this →

Now simply fill with clean water and plug into a grounded GFCI outlet  
**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**  
**Product must be properly stored for winter.**
