

Bastille Column Fountain Setup

Thank you for buying a "Bastille Column" Fountain by **Angelo Décor**! We hope you will find these instructions helpful in setting up your fountain.
If you have any questions with set up, parts replacement or warranty info, please, rather than returning your unit to the store, try a visit to our website, and give us a chance to help you. You will find helpful info at www.angelodecor.com
First: unpack carton carefully, and inspect contents carefully.

unplug light from transformer, run cords through pipe

push cords through bowl, then run through bottom

cords fit in groove, and should be placed at back

line up twist and lock (bowl to base)

pull pump outlet out with pliers

adjust pump to 1/2 strength

measure amount of tubing needed using finger as guide

carefully cut tubing to size, be sure to leave a little extra!

This is how pump and light should be positioned to insure efficient lighting

insert pump outlet into tubing as shown

insert tubing into pump line up twist and lock and twist into place

place rock over outlet to achieve a smooth flow

Please keep clean using a mild soap and soft cloth, and inspect pump for debris often.

We recommend keeping bowl 3/4 full of water to avoid pump burnout.

We also remind you that this item should be stored properly for harsh winters, as water left to freeze in the bowl may cause cracking, and is not covered by warranty.

May we suggest you disassemble and store for the winter months to preserve and prolong your investment.

CONGRATULATIONS! We wish you years of enjoyment.
