

# Roman Gate Fountain Setup

Thank you for buying a "Roman Gate" Fountain by Angelo Décor! We hope you will find these instructions helpful in setting up your fountain.  
***If you have any questions with set up, parts replacement or warranty info, please, rather than returning your unit to the store, try a visit to our website, and give us a chance to help you. You will find helpful info at [www.angelodecor.com](http://www.angelodecor.com)***  
**First unpack carton carefully, and inspect contents carefully.**

pump cord through standpipe in bowl, then through base, out bottom into groove. Secure bowl to base with twist and lock.

Set pump to full strength

remove outlet

cut tubing to size

set pump upright as shown

Note restrictor for fine tuning

insert outlet

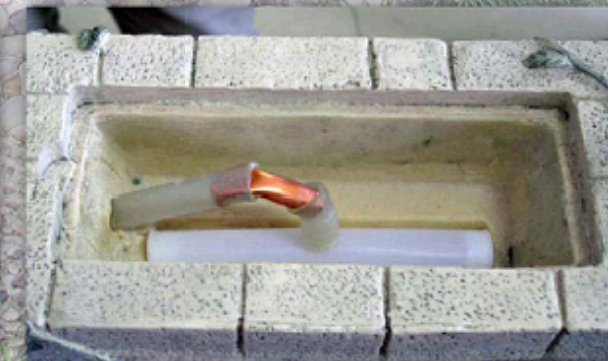

place top into position

connect water spout

attach brass fitting

this is how top should look

Now simply fill with clean water and plug into a grounded GFCI outlet

**We recommend keeping bowl 3/4 full of water to avoid pump burnout**

Your fountain works better and lasts longer when kept clean using mild soap and soft cloth on a regular basis
