**First unpack carton carefully, and inspect contents carefully.**

cord through standpipe

cord through bowl

push cord to bottom

cord through bottom groove

line up twist and lock,  
secure bowl to base

adjust pump to 3/4 strength

attach tubing to pump

line up twist and lock

fit top into place, watch that tubing  
is cut to size so it does not kink

If your Fountain includes a light accessory, be sure lamp is fully submersed in water at all times

Please keep clean using a mild soap and soft cloth, and inspect pump for debris often.

**We recommend keeping bowl 3/4 full of water to avoid pump burnout.**

We also remind you that this item should be stored properly for harsh winters, as water left to freeze in the bowl may cause cracking, and is not covered by warranty.

May we suggest you disassemble and store for the winter months to preserve and prolong your investment.

**CONGRATULATIONS!** We wish you years of enjoyment.
