Carefully unpack and arrange all parts.

Retrieve the light cable from inside the fountain.

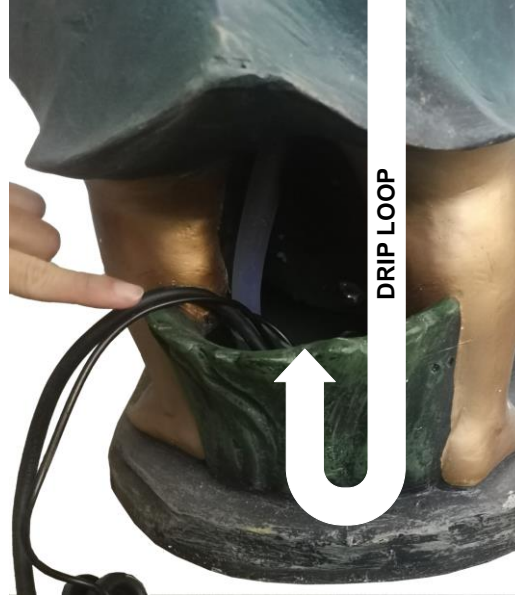

Securely attach the cable from the light to the transformer.

Locate the tubing from inside the fountain and attach it to the pump.

Water flow can be adjusted using the flow control dial on the pump.

Place the pump inside the fountain.

To prevent the risk of water loss, create a drip-loop with the light cord inside the fountain.

Fill with clean water and plug into a grounded GFCI outlet.

The pump must be fully submersed at all times to avoid pump burnout.

This product must be dried and stored during freezing temperatures.
